INTRODUCTION

Welcome to Colligo Contributor Client, the program helps extend the power of SharePoint to mobile and remote workers. Instantly and securely access, modify, and create SharePoint documents, list items, and metadata while offline. Sync changes to libraries and lists automatically when connected. Keep team members productive, regardless of network latency or unavailability, in the field or on the road.

Benefits

Colligo Contributor Client helps:

- Empower users to easily manage email and documents in SharePoint
- Increase the quantity of content captured and tagged in SharePoint
- Make SharePoint accessible directly from the desktop
- Drive mobile and remote workforce productivity with easy offline access
- Improve collaboration, and document project management
- Improve records retention to reduce risk and improve compliance

Features

Colligo Contributor Client lets you:

- Drag-and-drop documents to SharePoint
- Navigate to cached SharePoint content
- Sync documents, document sets, libraries, or entire SharePoint sites
- Open, save, organize, and classify SharePoint files directly from Windows Explorer

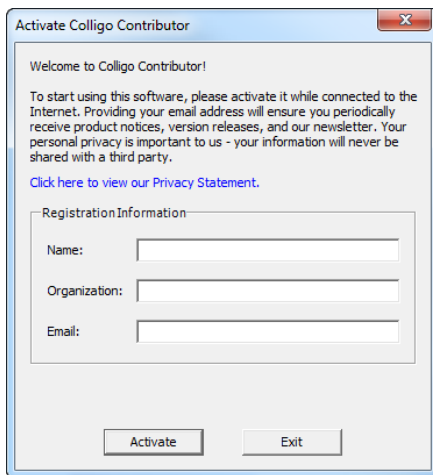

Platforms Supported

- Microsoft SharePoint Server 2010, MOSS 2007, or SharePoint Portal Server (SPS) 2003
- SharePoint Foundation Microsoft Windows SharePoint Services (WSS) 3.0, or 2.0
- SharePoint 2010 Online (Office365)
- Outlook 2007 and 2010 (32-bit and 64-bit)
- Windows XP Professional, Windows Vista, or Windows 7

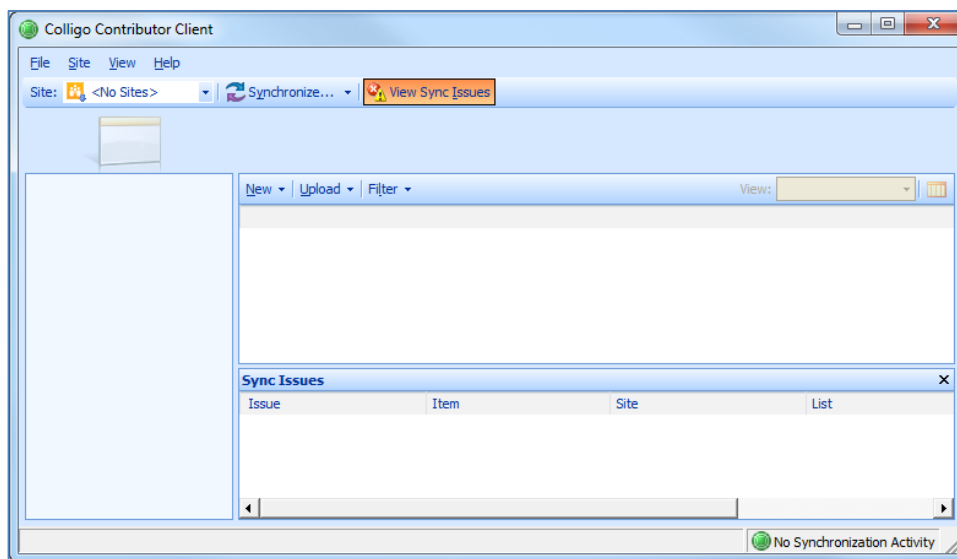

INSTALLING AND ACTIVATING CONTRIBUTOR CLIENT

To install and activate Contributor Client:

1. Double-click to open the zip file and extract the contents.
2. In the folder, double-click the folder that corresponds to your operating system:
 - a) **x64**: choose this option if you have a 64-bit operating system
 - b) **x86**: choose this option if you have a 32-bit operating system
3. Double-click either Setup.exe or .msi.
4. Follow the steps in the install wizard.
5. After the install is complete, the following dialog displays:

6. Enter your information and click **Activate**. If you do not activate Contributor Client, it will not launch.
7. After you have installed Contributor Client, choose **Colligo Contributor** from your **Start** menu or from the system tray icon to launch the interface:

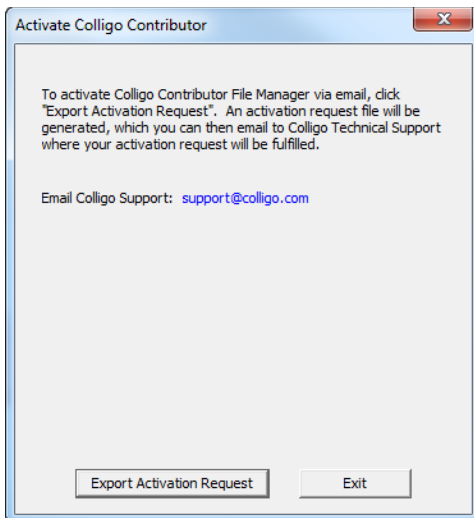

The Document Libraries and Lists display in the left column, and the content of the selected list or library displays in the right section.

Activating Contributor Client Manually

If you are unable to connect to the activation server, the following error message displays:

Click **Activate via Email** to create an activation request file. The following dialog displays:

Click **Export Activation Request**. This creates a .txt file that you can save anywhere on your machine, and then attach to an email that you can send to Colligo to request a manual activation.

Checking for Updates

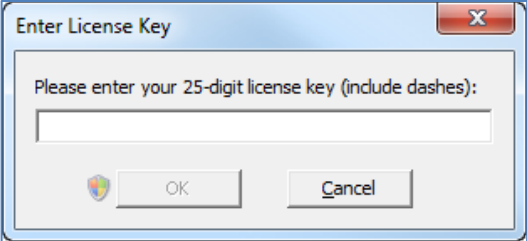

In the Contributor Client Control Panel, you can check if you are using the most current version of the program:

1. From the **Help** menu, select **Check for Update**. The www.colligo.com site launches.
2. If there is a newer version available, click the **Download the latest version now** link to install the newer build.

Updating Your License Key

In the Contributor Client Control Panel, you can change your license key:

1. From the **Help** menu, select **Install License Key**.
2. The **Enter License Key** dialog displays. Enter your new license key and click **OK**.

CONNECTING SHAREPOINT SITES

You can add a SharePoint list or library to Contributor Client in one of two ways:

- Using the **Connect to Contributor** option in Internet Explorer
- Using the **Download New Site** option

Using the Connect to Contributor Button

1. Navigate to a SharePoint List or Library in Internet Explorer.
2. Click the green **Connect to Contributor** icon on the toolbar.

3. The **Download New Site** dialog displays. Select either your default Windows credentials, or supply other user-specific credentials.

4. Click **Download**.

The **Select for Synchronization** dialog displays the lists and libraries you have permissions for:

5. Check the boxes beside the lists and libraries you want to synchronize; use the **Check All** or **Uncheck All** buttons if needed.
6. Click **Filter** to select which folders and views you want to synchronize.

The **Select Filters for Synchronization** dialog displays:

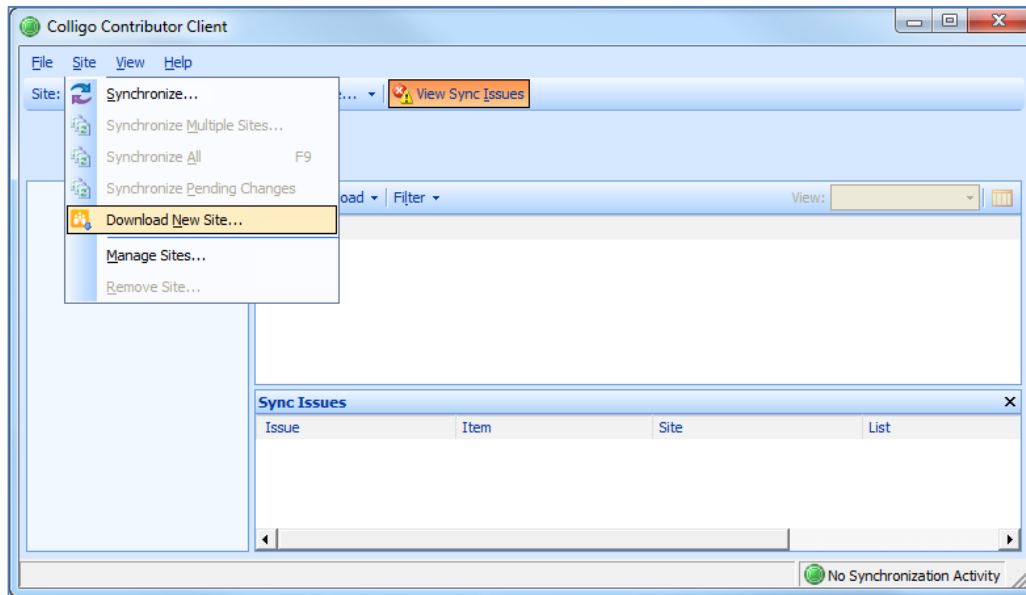

7. Choose from the following options:
 - **Disable Synchronization for this Document Library:** choose this option if you do not want the document library to be available offline.
 - **Synchronize Entire Document Library:** choose this option if want to synchronize everything in the specified document library.
 - **Only synchronize content based on the following filters:** choose this option if you want to selectively choose what folders and views are synchronized. In the **Synchronized Folders** and **Synchronized Views** sections, select a folder or view you want to synchronize and click **Add** to move it to the **Selected Folders/Views** column.
8. Click **OK**.
9. Click **Synchronize** to download the information for the lists and libraries you have selected.

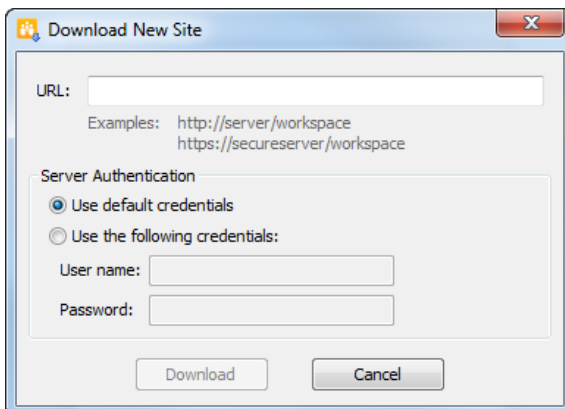

Using the Download New Site Option

To connect a site from within Colligo Contributor Client:

1. From the **Site** menu, choose **Download New Site**:

The **Download New Site** dialog displays:

2. Enter the **URL** of the site and enter your default credentials, or user-specific credentials.
3. See steps 6 to 9 of **Using the Connect to Contributor Button**.

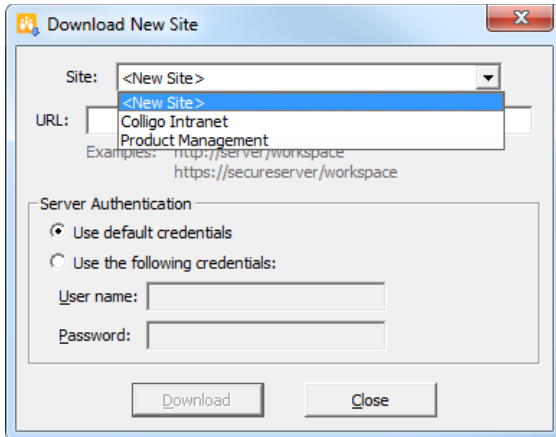

Editing Lists and Libraries

After you have added your site and chosen which lists and libraries you want to sync, you may want to go back at a later time and edit your choices. You can do this in one of two ways:

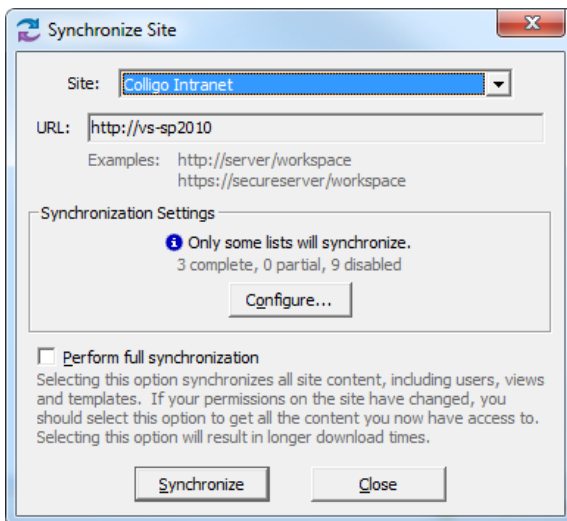

1. Right-click a list or library and select **Enable Synchronization** from the contextual menu. Then synchronize the site.

OR

1. From the **Site** menu, choose **Download New Site**.
The **Download New Site** dialog displays:

2. From the **Site** drop-down list, choose which site you want to configure.
The **Synchronize Site** dialog displays:

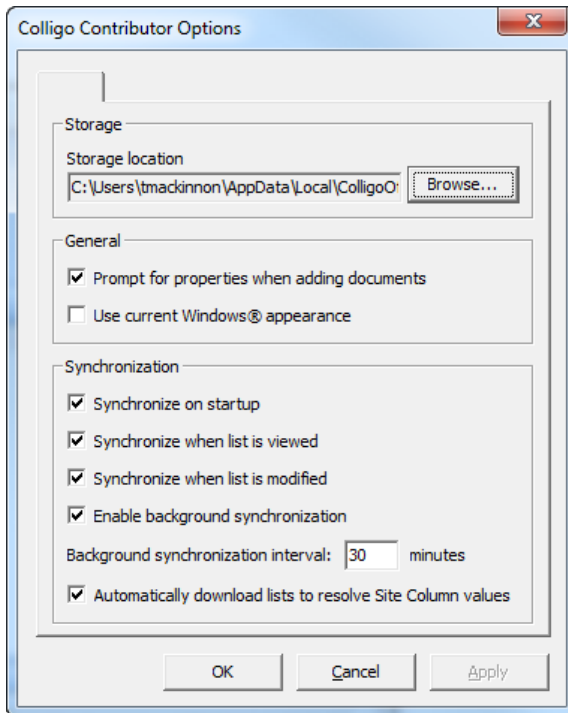

3. Click **Configure**.
4. In the **Configure Synchronization** dialog, choose which Lists and Libraries you want to sync.
5. Click **OK**.
6. Synchronize the new site.

SETTING SYNCHRONIZATION OPTIONS

In Contributor Client you can set your Synchronization options to your lists and libraries sync automatically. However, you can also perform manually syncs as well.

Configuring Synchronization Settings

1. From the **View** menu, select **Options**.
The **Colligo Contributor Options** dialog displays:

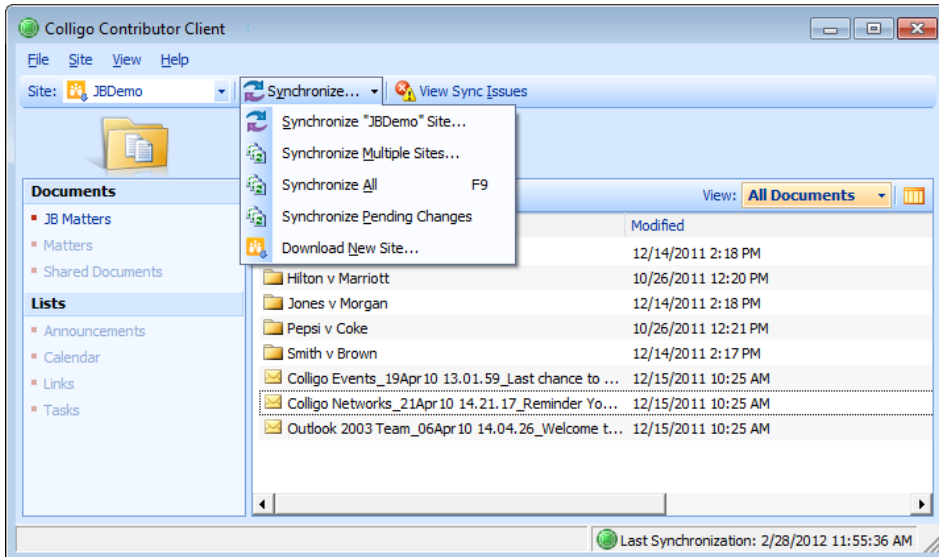

2. In the **General** section, you can turn on the prompt to record properties about the document by checking the **Prompt for properties when adding documents** box. You can override this setting for specific lists/libraries when you are configuring Default Metadata; see **Setting Default Metadata**.
3. In the **Synchronization** section, choose your preferred options:
 - a. **Synchronize on startup**: choose this option if you want your lists and libraries to synchronize every time Contributor Client starts
 - b. **Synchronize when list is viewed**: choose this option if you want your lists and libraries to synchronize every time you view a list or library
 - c. **Synchronize when list is modified**: choose this option if you want your lists and libraries to synchronize every time you modify a list or library
 - d. **Enable background synchronization**: choose this option if you want to set the synchronization to happen in the background on a time-specific basis, and enter your preferred time interval
 - e. **Automatically download lists to resolve Site Column values**: if you have lists that reference other lists (look-ups), checking this option ensures the related referenced lists are also downloaded

NOTE: Depending on how your IT Administrator has configured the installation, this dialog may not be accessible to you, or the synchronization options may be greyed out.

Synchronizing Sites Manually

After you have added your sites, you may want to synchronize them manually, outside of the settings you set in the **Colligo Contributor Options** dialog:

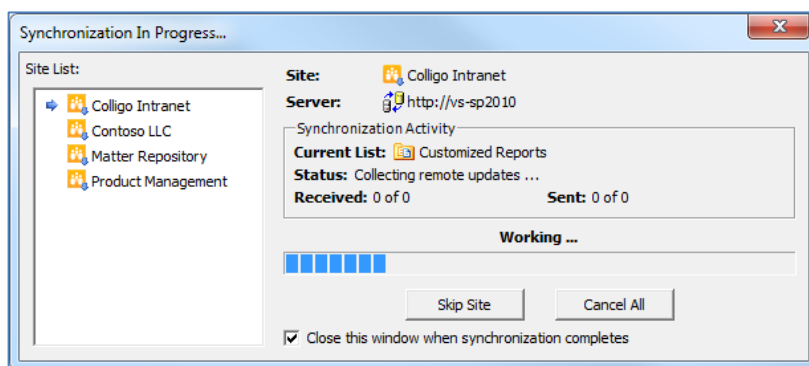

1. Click the **Synchronize** menu to display the options:

Choose from the following:

- **Synchronize Site:** select this option to synchronize the site currently displayed
- **Synchronize Multiple Sites:** select this option to display all sites and choose which ones you want to synchronize
- **Synchronize All:** select this option to synchronize all sites
- **Synchronize Pending Changes:** select this option to synchronize any lists or libraries containing changed content

The **Synchronization In Progress** dialog displays for any of the above options:

Completing a Full Synchronization

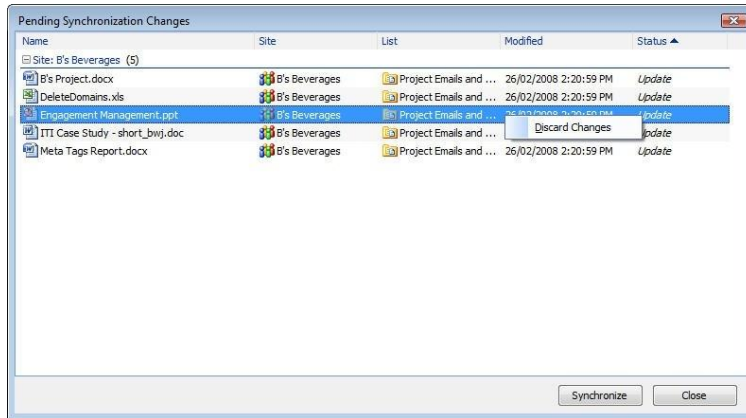

Several of the synchronization dialogs have a **Perform Full Synchronization** option. This option means that additional information is downloaded, including definitions for Sites, Lists, Views, and Content Types, plus other site content that may not be retrieved during other standard sync processes.

Viewing and Synchronizing Pending Changes

You can review content that has changed since the last synchronization and then synchronize it:

1. From the **View** menu, select **View Pending Changes**.

The **Pending Synchronization Changes** dialog displays:

2. To discard the changes for a particular item, right-click it and choose **Discard Changes**. Discarded changes are reverted upon the next synchronization.
3. Click **Synchronize**.

CREATING NEW CONTENT

After you have added your sites and synchronized your lists and libraries, the content is cached (available offline). You can now open and edit SharePoint items, check items in and out of SharePoint, as well as rename and delete items.

In addition to editing existing content in SharePoint, you can also add new content to your synchronized lists and libraries.

You can add items to Contributor Client in one of the following ways:

- Create new documents from within the Contributor Client interface
- Upload existing content
- Drag-and-drop or copy-and-paste content

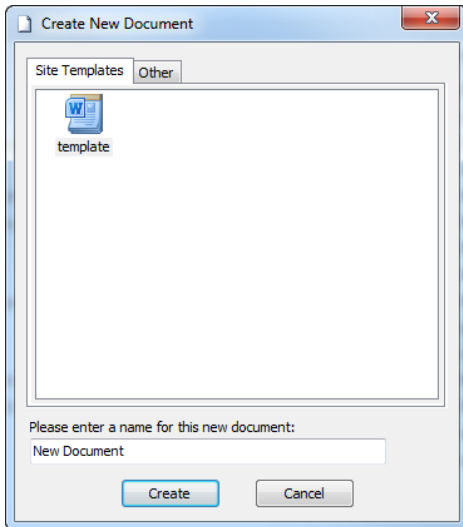

Adding a New Document to a List/Library

To add a new document to a list or library:

1. With the list or library you want to add the document to selected, click the **New** menu and select your preferred document type from the drop-down list:

The **Create New Document** dialog displays:

2. Choose your document type from the **Site Templates** tab or the **Other** tab.
3. Enter a name for the document, and click **Create**.
The **New Item** dialog displays. This is where you can record information about the document that is stored in SharePoint as well as choose the location of the document (click **Folder** to browse the folders and subfolders in the list or library).
4. Edit the **New Item** dialog as preferred.

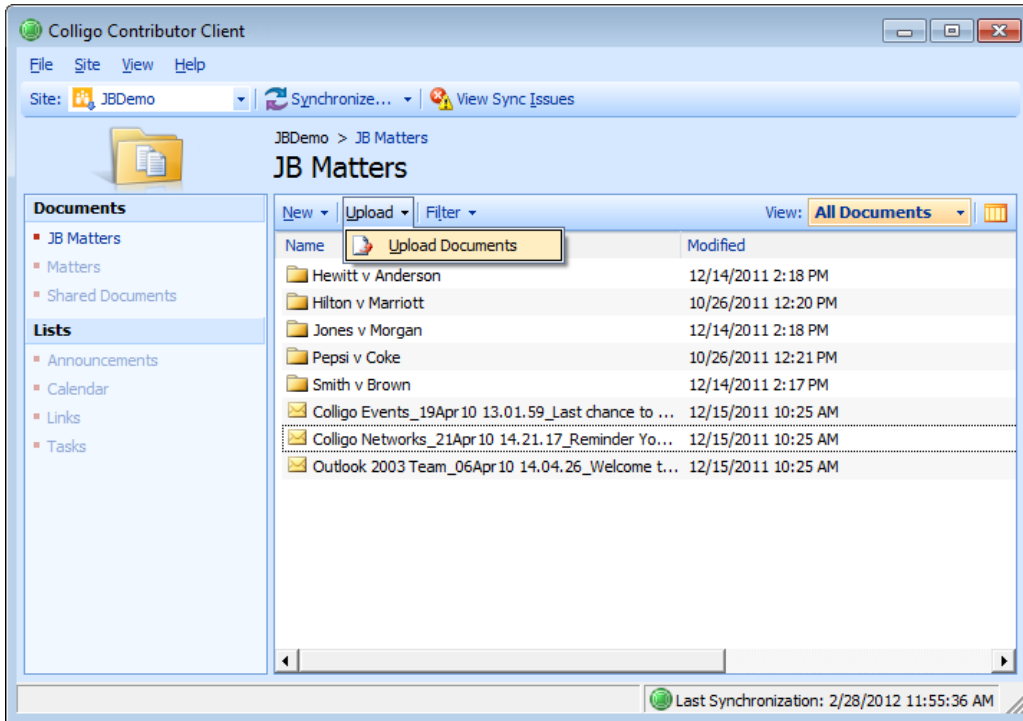

5. Click **Create**. The document is added to the SharePoint location.

Using the Upload Documents Dialog

To add an existing document to a list or library:

1. With the list or library you want to add the document to selected, click the **Upload** menu, and choose **Upload Documents**:

The **Upload Documents** dialog displays.

2. Browse to the document that you want to upload, and click **Open**. To select more than one document, use Ctrl + click.
3. The **New Item** dialog displays. Edit as preferred and click **Create**.
The document is added to the SharePoint location. If you have selected more than one document, any properties you assign apply to all items.

Dragging-and-Dropping Content

You can drag-and-drop one or more files or complete folder structures into Contributor Client from your desktop or from other directory locations.

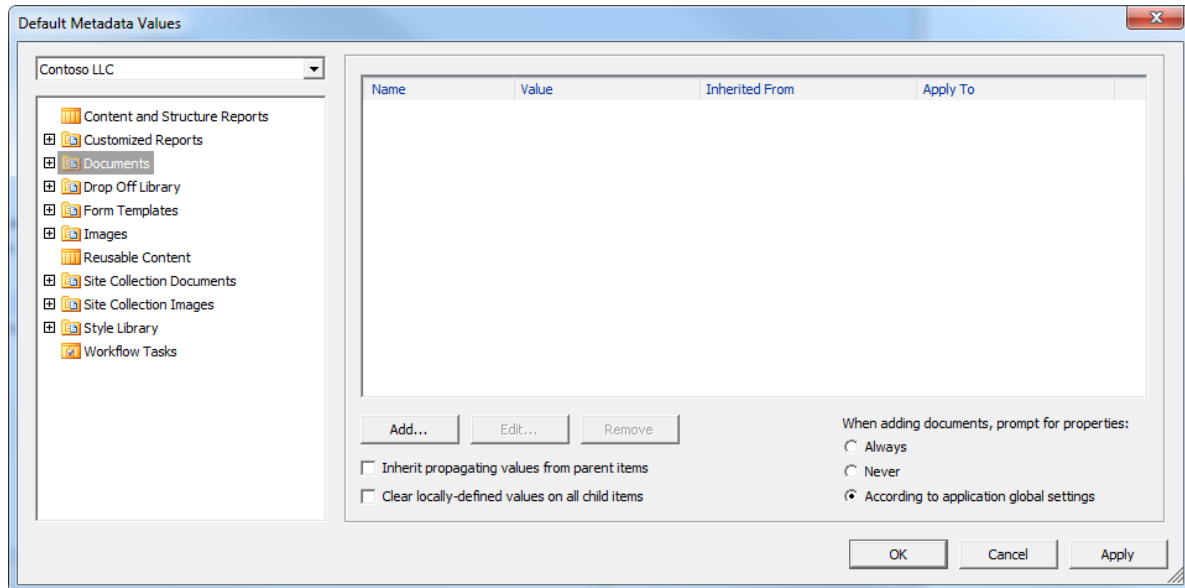

1. Drag-and-drop your preferred files or folders from your desktop or another directory to your preferred SharePoint location in Contributor Client.
2. The **New Item** dialog displays. Edit as preferred and click **Create**. The file or folder is added to the SharePoint location. If you have selected more than one document or a folder, any properties you assign apply to all items.

Setting Default Metadata

If you want to tag all documents and items that you add or upload to a list or library with the same metadata, you can set default metadata values through the Contributor Client interface:

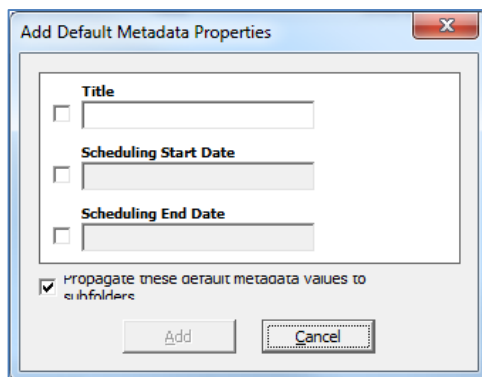

1. From the Control Panel **File** menu, choose **Default Metadata Values**.

The **Default Metadata Values** dialog displays:

2. Select the site and library/list that you want to configure.
3. To add a metadata tag, click **Add**.

The **Add Default Meta data Properties** dialog displays, displaying the metadata field options that are set in the document library in SharePoint.

4. Enter your preferred tags and click **Add**.
5. If you want the values to propagate to any subfolders, check the **Propagate these default metadata values to subfolders** box.
6. To configure the behavior or the prompt to record document properties, choose a radio button on the right under the **When adding documents, prompt for properties** section:
 - **Always**
 - **Never**
 - **According to application global settings** (as set in step 2 in **Configuring Synchronization Settings**)
