

Contributor Pro 6.0 SP1

Release Notes

Contributor Pro System Requirements

Operating System

Contributor Pro runs on the following versions of Windows:

- Windows 8
- Windows 7
- Windows XP Professional
- Windows Vista

Software Requirements

Contributor Pro is compatible with the following software:

- Microsoft Office 2007, 2010 SP1, or 2013 (32-bit or 64-bit edition)
- Internet Explorer 7 or higher (optional)
- Windows 2008R2 Server (for Terminal Services)

Contributor Pro also requires the following supporting software on the client machine:

- Microsoft .NET framework 3.5 Runtime
 - <http://www.microsoft.com/en-us/download/details.aspx?id=21>
- Microsoft .NET framework 4.0 Runtime
 - <http://www.microsoft.com/download/en/details.aspx?id=17718>
- Microsoft Visual C++ 2010 Redistributable Package
 - 32-bit Operating System: <http://www.microsoft.com/download/en/details.aspx?id=5555>
 - 64-bit Operating System: <http://www.microsoft.com/download/en/details.aspx?id=14632>
- Visual Studio Tools for Office (VSTO) 2005 SE
 - <http://www.microsoft.com/en-ca/download/details.aspx?id=24263>
- Visual Studio Tools for Office (VSTO) 2010
 - <http://www.microsoft.com/en-us/download/details.aspx?id=35594>
- Microsoft Office PIAs
 - Office 2013: check with Microsoft for Office 2013 PIA availability
 - Office 2010: <http://www.microsoft.com/download/en/details.aspx?id=3508>
 - Office 2007: <http://www.microsoft.com/download/en/details.aspx?id=18346>
- Windows Identity Foundation: <http://www.microsoft.com/en-ca/download/details.aspx?id=17331>
NOTE: Windows Identity Foundation (WIF) is not supported in Windows XP, so it is not necessary to install it if you are using XP. For Windows Vista/ 7/8, WIF is required to handle Colligo Administrator authentication through ADFS.

Server Software Requirements

Contributor Pro supports connectivity with any of the following editions of SharePoint:

- Microsoft SharePoint Server 2010 or 2013
- Microsoft SharePoint Server 2007 (not supported by Email Manager Connected Mode)
- Microsoft SharePoint Foundation 2010 or 2013
- SharePoint 2013/2010 Online (Office 365)
- (Optional) Microsoft FAST Search Server 2010 for SharePoint

Hardware Requirements

Contributor Pro has the following hardware requirements:

- Windows-based PC (Minimum: 1 GHz processor, 500 GB HDD, 1 GB RAM)

Resolved Issues

Release 6.0 SP1 (build 6.0.56.0) May 3, 2013	
Issue #	Description
41682131	There was an error with IE site connect in Email Manager Offline mode. This issue has been resolved.

New Features

Release 6.0 SP1 (build 6.0.54.0) May 2, 2013	
Reference #	Description
43089731	When users have no connectivity, the search feature in Email Manager displays an error message.
48005881	Email Manager can now connect through ADFS to use Colligo Administrator.
48006541	By default, the ability to select multiple items in the metadata editor is enabled. To disable this setting, see: http://www.colligo.com/support/setting/disable-multi-select-feature-in-metadata-editor
48007145	Email Manager now supports Office 365 authentication re-directs to a local ADFS server. Users must specify their own Office 365 credentials when adding an Office 365 site.
48008861	Email Manager now supports Administrator in all Colligo-supported authentication modes. See here for a list of supported authentication schemes: http://www.colligo.com/support/kb/what-sharepoint-authentication-methods-are-supported/
48180349	Briefcase for Windows can now exceed the List View Threshold and List View Lookup Threshold simultaneously. This setting is off by default. To enable this setting, see: http://www.colligo.com/support/setting/enable-list-view-threshold-override

Resolved Issues

Issue #	Description
41682131	Briefcase for Windows did not respect environment variables (eg. [username]) for the Storage Root registry value. This issue has been resolved.
42655003	The Configuration dialog in Email Manager had out-of-date tooltips when the status of a location changed from not synchronized to either Upload Only or Offline. This has been resolved.
43975981	An issue where Managed Metadata terms contained a trailing semi-colon (;) on Managed Metadata Terms when viewing metadata has been resolved.
43977281	Previously, if the Send-And-File feature in Email Manager was used, metadata was not applied if the Subject field of the email was blank. This has been resolved. This is a resolution of a previously documented Known Issue 43977281.
45366939	Previously, if users altered the maximum number of Favorites and History items in

	Email Manager, the changes would not persist after Outlook was restarted. This has been resolved.
46317455	Occasionally, Managed Metadata defaults set at the folder level in SharePoint would not apply to uploaded items. This has been resolved. This is a resolution of a previously documented Known Issue 46317455.
46747625	During the migration process from Email Manager 5.5 to Email Manager 6.0, the ADFS Registry configuration was not being migrated. This has been resolved.
47024411	If a user used the Connect to Email Manager button to add an Email Manager Folder that pointed to the same SharePoint location as an existing Folder, an error occurred. This has been resolved.
47065019	In the Email Manager Offline view, there were multiple occurrences of the New , Upload , and Filter menus. This has been resolved. This is a resolution of a previously documented Known Issue 47065019.
48210983	In some cases, an error occurred when dragging-and-dropping items directly from the Recovered Items folder into an Email Manager Favorite or Folder location. This has been resolved.
48211331	In some instances, in Email Manager users could not file emails with embedded images. This has been resolved.
48271013	Office 365 sites that contained redirects could not be added to Email Manager even when the site was accessible through Internet Explorer. This has been resolved.
48431151	Any fields that were hidden in SharePoint were not hidden in Contributor Pro. This has been resolved.
48761821	If there were spaces before or after the license key when users entered it in the installer, it was considered an invalid key. This has been resolved. NOTE: trailing or leading white space in the MSI property will still result in the key being read as invalid. This resolution is specific to the guided installer.
49094291	In certain situations, when Email Manager was installed in Offline Mode, users were unable to upload files. This has now been resolved.

New Features

Release 6.0 (build 6.0.44.0) April 15, 2013	
Reference #	Description
0000001	<i>Email Manager Offline Mode</i> now supports viewing and filing SharePoint content and email while offline.
0000002	New icons (upload-only folder vs. offline folder) now display to represent the respective states of the SharePoint locations.
0000003	The two products that are bundled together to form Contributor Pro share a single SharePoint configuration setting.
0000004	<i>Email Manager</i> and <i>Briefcase for Windows</i> now have the same Metadata support.
0000005	Authentication types supported now include Windows (default and non-default), Windows mixed mode (form-based and Windows default and non-default), Form-based, Office 365, and ADFS2.0

Known Issues

Issue #	Description
0000006	German, French and Spanish language are currently not supported
0000007	SharePoint 2007 is currently not supported in <i>Email Manager Connected Mode</i> .
0000008	There is no ability to change the storage location in <i>Briefcase for Windows</i> .
0000009	IE site connect only supports SharePoint sites with default Windows credentials in <i>Email Manager Offline Mode</i> .
0000010	There is no ability to add a term to a managed metadata set in <i>Email Manager Offline Mode</i> .
0000011	Adding an attachment from SharePoint when sending an email is only supported when users have a network connection in <i>Email Manager</i> .
0000005	There is no ability to filter folders when a user navigates the SharePoint hierarchy in <i>Email Manager Offline Mode</i> .
46317455	The ability to apply default metadata at the folder level is not supported in <i>Email Manager Offline Mode</i> .
46317455	The ability to prompt the metadata editor at the folder level is not supported in <i>Email Manager Offline Mode</i> .
43977281	If an email with a blank subject line is sent using the Send and file feature, metadata will not be applied in <i>Email Manager Offline Mode</i> .
47065019	The top menu bar in the offline SharePoint view displays multiple times in <i>Email Manager Offline Mode</i> .
47936149	When using IESiteConnect for Office365 in <i>Email Manager Connected Mode</i> , a library may be added as a site.
