

# Colligo Email Manager & Content Manager for Microsoft 365

Email Capture and SharePoint Collaboration From Any Device

Take a fresh look at Colligo solutions for Microsoft 365 - productivity tools for a work-from-home world.

Bring email capture plus SharePoint collaboration capabilities right into Outlook when you combine Colligo Email Manager and Content Manager for Microsoft 365.

Save and classify emails and attachments, search and collaborate on any SharePoint file, and do it all quickly and seamlessly from any device.

### Email Manager - capture and classify emails and attachments, easier than ever!

- Easily file emails and attachments to SharePoint and Teams on-the-go from any device.
- Automatically capture email headers as metadata to easily search and find emails or documents later. Optionally save additional metadata for better discovery and records management.
- Search SharePoint content within Office 365's native interface, without switching apps.
- Email SharePoint content as links for easy collaboration and file-sharing with their peers.

### Now, with Content Manager - extend SharePoint collaboration

- Easily explore and preview any SharePoint file right from Outlook on Microsoft 365.
- Efficiently search for and filter files & share quick links to latest file versions right from Outlook .
- Pin favourite locations or create a dashboard for quick access to SharePoint files.
